

# SciELO - NSL/CAS Declaration on Open Science Research Communication Infrastructure

11 June 2026

The SciELO Program and the National Science Library of the Chinese Academy of Sciences (NSL/CAS) jointly organized the hybrid online and in-person Technical Workshop on Open Science Research Communication Infrastructure with physical premises at the SciELO Brazil headquarters in São Paulo, between 9–11 June.

The workshop focused on the need for the development of technical computational platform of research communication-related products and services oriented to empower authors, editors, and publishers to embrace Open Science as the way to maximize research visibility and impact within national conditions and priorities.

The workshop culminated in NSL/CAS and SciELO agreeing to advance a joint development of AI-supported open products and services to improve global flow of Open Science research communication and oriented primarily to the SciELO Network operation.
